FED = Federal Noxious Weed List (entries are highlighted)

p = permit required

q = quarantine required

Frequently offered in the trade

**Genus spp. listing indicates any / all subspecies are prohibited. For example *Typha* spp. = any / all Cattails are prohibited to PR.**

Compiled from Federal and State confirmed lists, available online or provided by State agencies.

Currently accepted names are from the Germplasm Resources Information Network (GRIN) database, USDA, ARS, USDA Plants Database, and Weed Science Society of America Composite List of Weeds

List excludes weeds designated as "Control is county option" but noted if known.

FL, NC, SC (as well as many other states) also adopt the list of Federal Noxious Weeds

MN also adopts the list of Federal Aquatic Noxious Weeds

MN Regulated= Legal to possess, sell, buy, and transport regulated invasive species, but they may not be introduced into a free-living state, such as being released or planted in public waters.

PR (Puerto Rico) is also regulated as a state.
